

# Left hand knitting

When you learn left hand knitting, you will get the most pleasure out of entrelac, not having to turn your work around after each row.

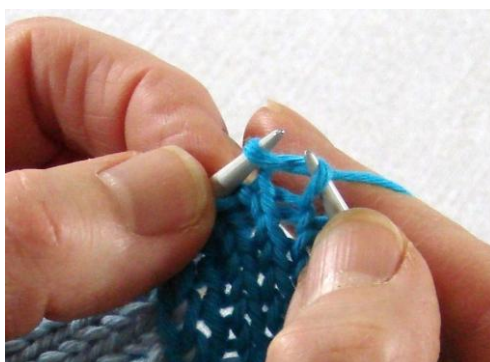

## Knit stitches:

Knitting thread on your right index finger -

Put the left needle through the stitch on the right needle.

Further send the needle under the thread and around it.

## Purl:

Send the needle through the stitch from the back.

Leave the knitting thread between the needles and twist the left needle out of the stitch in order to make one purl on the left needle.
